

## Matthew Ridenour, LEED AP

Matthew exhibits natural drive, charisma, and creativity which enables him to produce high quality work for a diverse range of projects. He is a multi-faceted designer, a BIM leader for projects in Revit, utilizing Rhino for 3-D modeling and visualization, and exceling in Creative Suite for graphic design and communication. He has a passion for sustainable design and is a LEED administrator, pursuing and documenting environmentally responsible design. He relates well with team members and has been commended for his ability to communicate respectfully and effectively, while rising as a leader among his peers. With a creative mind and a positive attitude, Matthew is passionate about the role of design in the creation of inspiring and humanistic spaces for those who experience the built environment.
